EBUBECHUKWU PROSPER
Frontend Web Developer

+234 808 475 2054 • 14prospa@gmail.com • https://prospa-dev.gt.tc • Awka, Nigeria

Summary

Frontend Developer and Architecture student proficient in Next.js, React and database management. Equipped with a strong foundation in software architecture and self-driven learning from top coding programs. Skilled in creating scalable, responsive web applications, Expanding expertise in typescript to optimize user experience and application performance.

SKILLS

Technical Skills: NextJs · React · Tailwind CSS · Bootstrap · Html5 · CSS3 · Firebase · Supabase · Git

Secondary Skills: Revit · Twin Motion · Architectural Drafting · Microsoft Excel · Microsoft Word · Your Skill

Key Project

QRsty
https://qrsty.site
2026

QRsty – Full-Stack Mini Webpage / Custom Profile & Card Platform

- Designed and built a full-stack platform enabling users to create personalized, shareable mini-web pages (cards) for showcasing social links, business info, menus, events, portfolios, and contact details.
- Engineered a real-time backend with Firebase Firestore and Authentication, including secure user flows for profile management, account deletion (with re-authentication), and email verification.
- Implemented dynamic card rendering, public access pages (your-link.qrsty.site), and optional QR code generation for instant offline sharing.
- Developed custom middleware for wildcard subdomain routing (e.g., username.qrsty.site → specific card), deployed on Vercel with custom domain support.
- Applied performance optimizations, responsive design (mobile-first), and SEO best practices (metadata, Open Graph, sitemap) for discoverability.
- Built with Next.js (App Router), Firebase, Cloudinary (image hosting), and Tailwind CSS; deployed to production with CI/CD.
- Other completed projects can be found in my portfolio https://prospa-dev.gt.tc/

Education

University of Benin, Nigeria.
2019
Architecture

Courses

JavaScript Algorithms and Data Structures Certification

Responsive Web Design Certification

React & Database Management (Coursework Completion)

Relational Database Design
