KEY PROJECT

WhisperIn

📅 2025   📍 https://whisperin.gt.tc

Full-Stack Anonymous Messaging Platform

- Engineered a serverless messaging application using React and Firebase for real-time data handling.
- Architected a secure Cloud Firestore database with custom security rules to ensure user anonymity and data integrity.
- Implemented complex logic for account management, including a secure deletion workflow requiring re-authentication to protect against unauthorized actions.
- Search engine optimised.
- Designed a mobile-first, minimalist UI using Bootstrap to ensure accessibility across various device types. View portforlio link for other projects completed.
